Orange
Cyberdefense

Talking about Orange Cyberdefense and cybersecurity.

15.10.21

About this document

This document explains how we position ourselves in the market.

How we differentiate ourselves from competitors and tell a memorable story.

It’s for all employees from Orange Cyberdefense, or other Group entities talking in our name, to be able to say who we are and how to say it.

The goal is to help us be consistent and improve our impact and awareness when talking about cybersecurity at Orange.

Agenda

1. Orange Cyberdefense legacy and mission
2. Our positioning and differentiators
3. In practice
4. Our Brand Voice

Agenda

1. Orange Cyberdefense legacy and mission

Our legacy: where we come from

Orange Cyberdefense is the Orange Group entity dedicated to cybersecurity.

- **Orange purpose is to give everyone the keys to a responsible digital world, we strive toward that same ambition by protecting our clients' digital activities.**
- **Orange Cyberdefense is the expert cybersecurity business unit of the Orange Group, providing managed security, managed threat detection & response services to organizations around the globe.**
- **Orange Cyberdefense secures the group services and offers including Orange Business Services.**
- **Our Digital Operator DNA gives us a head start by feeding our intelligence-led approach.**

Our mission: Why?

“Build a safer digital society”

Our mission: Why?

“Build a safer digital society”

« Digital freedom is not a given […]

At Orange Cyberdefense, we believe that the digital world can remain a trusted means of leisure, professional opportunities and services that make everyday life easier, more prosperous and fulfilling.

We need to protect freedom and safety in the digital space, not only in crisis, but on our way into the future. Our purpose is to build a safer digital society. »

- This is our mission, our ‘’raison d’être”
- The core that drives and aligns the whole company and business from yesterday, through today and on to tomorrow
- It remains, whatever the changes in the market
- It is meaningful to multiple parties: businesses, talents, employees and the wider society

Agenda

1. Orange Cyberdefense legacy and mission
2. Our positioning and differentiators

Build a safer digital society

We are the leading security services provider, supporting your business globally

Global footprint with a European anchorage.

The security of your business in trusted hands.

Threat research and intelligence are part of our DNA.

So you can invest your resources where they have most impact.

+2,500 multi-disciplined experts close to you

Compliance,
Protection, detection & response
within your easy reach.

Positioning: Who we are and what we do

Our main statement

“We are the leading security services provider, supporting your business globally”

Positioning: Who we are and what we do

Our main statement, in words and how to use it

"We are the leading security services provider, supporting your business globally"

We are not a technology vendor.

We provide managed security, managed threat detection & response services to organizations around the globe.

We can offer global protection with local expertise.

We support our customers throughout the entire threat lifecycle.

How we use this statement:

- This is how we position ourselves to the market
- We use it as a verbatim when presenting the company
- In any case where you are asked who we are (website, press release, social media)

Positioning: How we do it

Our 3 differentiators and how to use them

Global footprint with a European anchorage.
The security of your business in trusted hands.

Threat research and intelligence are part of our DNA.
So you can invest your resources where they have most impact.

+2,500 multi-disciplined experts close to you.
Compliance,
Protection, detection & response within your easy reach.

How we use them:

- This summarize our know-how and customer benefits
- It should reflect on case studies, CVPs or when developing content for campaigns (landing page, emailing,…)
- We will demonstrate it in our story telling and customer cases with proof points and figures

Positioning: How we do it

Our differentiator #1

“Global footprint with a European anchorage.
The security of your business in trusted hands.”

Positioning: How we do it

Our differentiator #1, in words

“Global footprint with a European anchorage.
The security of your business in trusted hands.”

- Our **International reach** includes Europe, the Americas, Africa, Middle East and Asia Pacific, we meet your **local requirements** and have a **worldwide** coverage.
- Aligned with our French-native legacy, **European principles and values** and beyond **international standards** we ensure **data protection and privacy** for our customers as well as for our employees.
- In the face of geopolitical tensions and economic rivalries in cyberspace, we consider that security will be ensured by **technological diversity** and a lucid management of dependencies.

Bleu ‘’cloud initiative” from the Group

Positioning: How we do it

Our differentiator #2

“Threat research and intelligence are part of our DNA.

So you can invest your resources where they have most impact.”

Positioning: How we do it

Our differentiator #2, in words

“Threat research and intelligence are part of our DNA. So you can invest your resources where they have most impact.”

- It’s the combination of our digital network operator DNA, our strong R&D and our global operations that gives us a head start to anticipate and detect the threats.
- We are expertise-driven and our intelligence-led approach enable you to focus on what matters, achieving better security outcomes.

We are proud of our high-end security research unit, thanks to which we publish regularly white papers, articles and tools on cybersecurity. Our research is widely recognized and used throughout the industry, including conferences such as Infosec, RSA Conference, BlackHat and DEFCON.

Orange Cyberdefense, 2021 Global CVP presentation

Positioning: How we do it

Our differentiator #3

“+2,500 multi-disciplined experts close to you:
Compliance, protection, detection, and response at easy reach.”

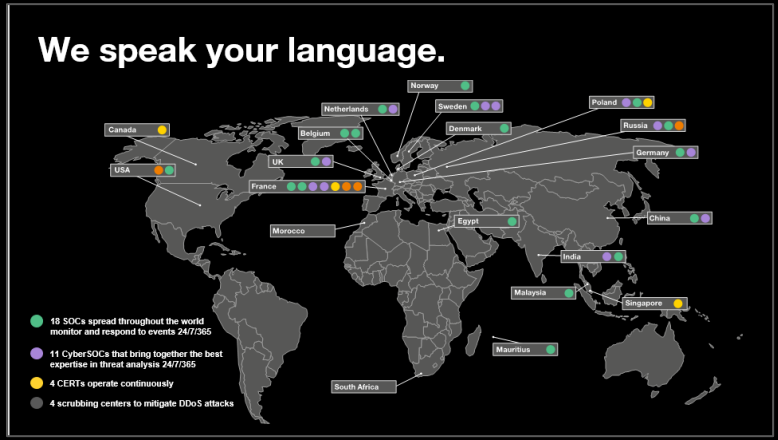

Positioning: How we do it

Our differentiator #3, in words

+2,500 multi-disciplined experts close to you:
Compliance, protection, and response at easy reach.

- Our experts are working together across the globe to protect you anytime, anywhere with relevancy and easy reach.
- Thanks to our multi-skilled and multi-disciplinary team of experts : pentesters, security analysts, researchers, malware engineers, security architects, cloud specialists, OT experts…

We provide the relevant answer whatever the need, wherever you are located.

18 Security Operation Centers distributed across the world and sales and services support in 160 countries, we can offer global protection with local expertise and support our customers throughout the entire threat lifecycle.

Agenda

1. Orange Cyberdefense legacy and mission
2. Our positioning and differentiators
3. In practice

Our Mission, in practice

“Build a safer digital society”

We showcase our mission on corporate communication assets, to communicate on our brand:

- Brochures and corporate communication assets
- Roll-up banners at events
- Corporate presentations and videos
- For employer branding communications

We don’t use it at a marketing campaign level, not to confuse our audience with too many messages.

https://youtu.be/ojGHY1IZNGwi

Our differentiators, in practice

“Global footprint with a European anchorage”:

Focus on our global coverage:

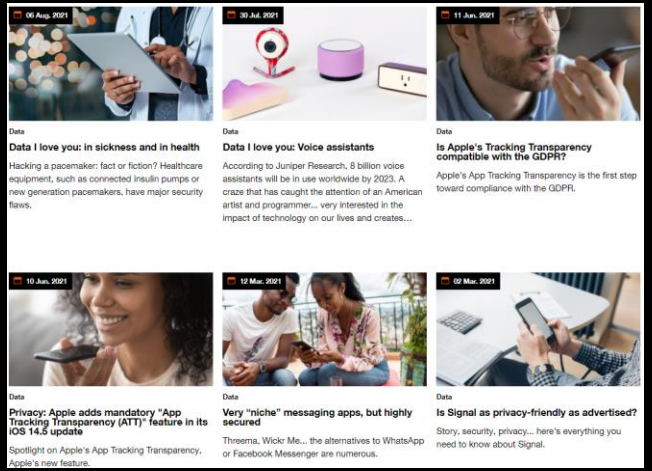

- Use our map to illustrate
- Emphasize our CERTs collaborating with other operators on the cyber threats at a European and International scale

Demonstrate our European anchorage:

- Illustrate it with proof points on data privacy, fair play collaboration with other governments and non-government agencies
- Highlight reliability in the way we manage our customers' systems with transparently located employees and data

Proof points, ex. to reuse :

Our blog page on data privacy
https://orangecyberdefense.com/global/blog/data/

Member of the
The Trusted Introducer Service established by the European CERT community

Our differentiators, in practice

“Threat research and intelligence are part of our DNA”:

Leverage Orange Cyberdefense experts' inputs:

- Re-use existing piece of thought leadership from our content library (whitepaper, blog post, case studies) in all security-related content and public speaking opportunities

Proof points, ex. to reuse:

Our “Insights’ page” with free insights from our Threat Researchers, available to all.
orangecyberdefense.com/global/white-papers

Example:

- Kaseya attack landing page, re-use of the Winds of change whitepaper

https://orangecyberdefense.com/global/kaseya-ransomware-attack/

Our differentiators, in practice

“Threat research and intelligence are part of our DNA”:

Leverage Orange Cyberdefense experts' inputs:

- **Showcase our own figures from our researches**

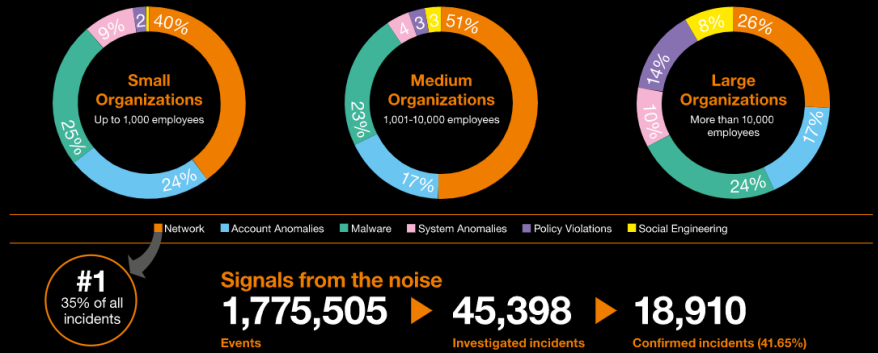

Proof points, ex. to reuse:

Security Navigator ex.

Our differentiators, in practice

“Threat research and intelligence are part of our DNA”:

Leverage Orange Cyberdefense experts' inputs:

- **Quote experts when relevant**
- **Highlight market recognitions**
- Leverage our speeches at conferences such as Infosec, RSA Conference, BlackHat and DEFCON

Proof points, ex. to reuse:

https://orangecyberdefense.com/global/market-recognition/

Our differentiators, in practice

“+2,500 multi-disciplined experts close to you”:

- Adapt and translate where possible our contents to local language.
- Ensure geographic diversity in all contents in terms of: visuals, participants, points of view.
- Quote local experts.
- Highlight different expertises (pentesters, analysts, consultants, architects)…

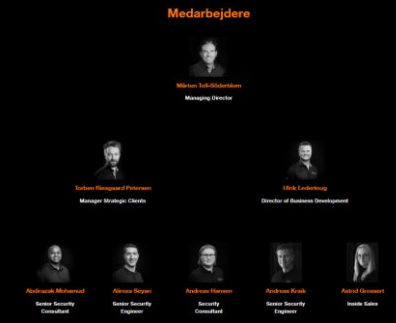

Proofpoints/ best practice:

Agenda

1. Orange Cyberdefense legacy and mission
2. Our positioning and differentiators
3. In practice
4. Our Brand Voice

Brand Voice

Do

- Communicate in a way that simplifies our complex world of technology (simple)
- Demonstrate that we are confident in our expertise (positive)
- Show proximity to our customers' concerns (close to)
- Focus on education, expertise and facts

Don't

- Hyperbolic communication
- Trendy complicated words
- Empty writings, clichés

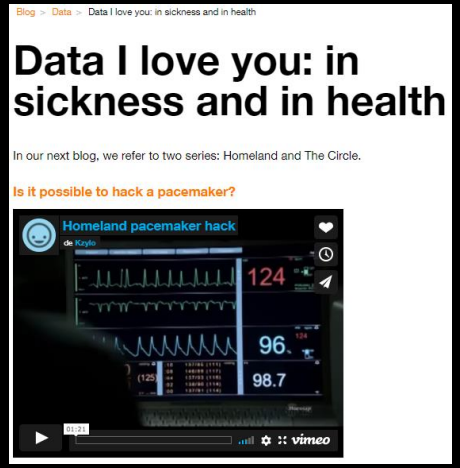

Reduce your security risk with Orange Cyberdefense's experts combined with the latest technology.

~~We are AI-based, next generation MSS, MDR, XDR based on best of breed technology to enable cutting-edge value generation.~~

Brand Voice

Do

- Adopt a fun and quirky tone of voice when relevant, subtle and accurate

orangecyberdefense.com/de/blog/data-i-love-you-in

Security Navigator 21 ex.

Don't

- Do not use a FUD: fear, uncertainty, doubt - approach
- Refrain from focusing on incidents and scary statistics
- Fun and quirky does not mean slapstick humor everywhere !

Brand Voice

Do: Position ourself on what we stand for

- Provide proof-points and solid background
- Emphasize our holistic approach

Avoid: Position ourself compared to or against others, invent vague content

- Write on cyber expertise apart from solid background and confirmed facts and figures
- Put at the forefront the vendor or the technology behind
- Quote competitors or vendors

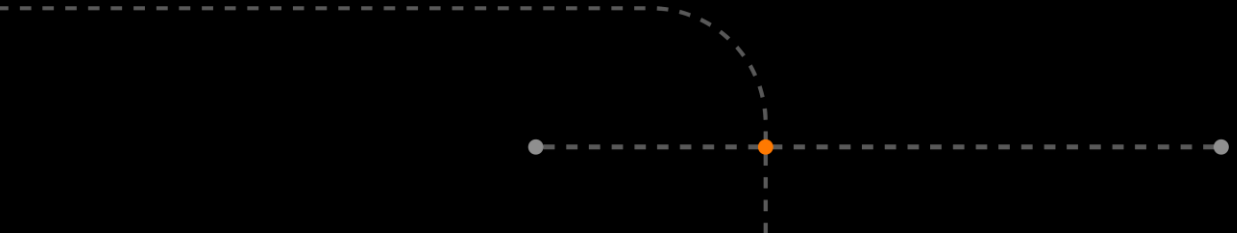

We are threat research, intelligence-driven, offering unparalleled access to current and emerging threats.

Thanks to our close partnership with VendorX, their work has allowed us to jump ahead 5 years.
